Morgan Stanley University Photo Competition 2015

Share your unique creative perspective and submit your photos for a chance to win some fantastic prizes! We encourage you to submit up to two photos that represent the theme of this year's competition, "Healthy Cities." The photos should portray your interpretation of a Healthy City, taking into account the fundamentals every child needs for a healthy start: wellness, nutrition and play. As a firm, we are committed to advancing social responsibility through our work with clients, partners and in our communities. But what does a "Healthy City" look like through your eyes?

For details on how to enter please visit:
